WORK EXPERIENCE

September 2024

Junior Software Developer - (Generation Thailand Bootcamp)

- Developed expertise in front-end and back-end web technologies, including React, Vite, Tailwind CSS, SQL, Express, and MongoDB.
- Led an e-commerce project, collaborating with a team to create a fully functional application, emphasizing problem-solving and performance optimization.
- Strengthened database skills with relational design and large dataset management.
- Applied Agile project management through sprint planning and code reviews.
- Enhanced communication, critical thinking, and adaptability by actively engaging in team feedback and learning new tools to meet project needs.

August 2019 – Present

Graphic Designer (Freelance)

- Communicated with clients to understand their needs and requirements.
- Planned design projects such as logos, corporate identity (CI) brands, posters, and packaging.
- Designed and revised logos, CI brands, posters, and packaging based on client feedback.
